LANGHORNE CREEK

Makers' Project is a range that celebrates expertise and innovation in wine. It builds on Wolfgang Blass's original vision to create wines that taste great – wines people want to drink. These are wines our winemakers love to make, wines that highlight innovative quirks and winemaking processes that make them not only tasty, but fresh, original and exciting.

Makers' Project Rosé was made with free run juice drained directly from the press. With no squeezing of the skins and seeds, only the pure, fresh, vibrant juice was fermented, resulting in a deliciously light, fruity wine. A juicy palate and lingering finish make it the perfect dinner date.
